Saravanan A

Salem, Tamil Nadu, India | +91 6374917497 | arulsaravanan461@gmail.com | Github | Leetcode

SUMMARY

I am strong in Programming, Data analysis, and Machine Learning. Experienced in building academic and personal projects using Web technologies and AI tools. Quick learner, collaborative Team member and eager to contribute to innovative Tech environments.

EDUCATION

B.Tech Information Technology - Vellore Institute of Technology, Vellore – 2022 - *present*	90.20 %
HSC – Government Higher Secondary School, Namakkal – 2021 - *2022*	95.60 %
SSLC – Government Boys Higher Secondary School, Kallakurichi – *2019 - 2020*	92.20 %

INTERNSHIP

Java Fullstack - Online Internship - Learned end-to-end web application components using Java, JDBC, Spring Boot, and MySQL.

PROJECT

Unreserved Train Ticket System (UTS)

A web-based application inspired from the Indian Railways UTS platform that helps users plan unreserved train journeys. It allows users to check and calculate general ticket fares efficiently. The system is designed to be simple, responsive, and user-friendly

Generative AI for Encrypted Traffic data analysis

This project applies Generative AI techniques using GANs to analyze encrypted network traffic. Synthetic anomalous samples are generated to address dataset imbalance issues in encrypted traffic datasets.

PUBLICATION

Comparative Evaluation of VAE, GAN, and SMOTE for Tor Detection in Encrypted Network Traffic — Saravanan A, Cherukuri. A.K (Mentor**)** , arXiv:2601.01183 , Jan 2026

SKILL

Programming	C, C++, Java, Python
Full stack	HTML, CSS, JavaScript, Node.js, Express.js, MongoDB, MySQL

LANGUAGE

Tamil | English | Japanese

ACHIEVEMENT

Secured the merit Scholarship in VIT under the **STARS** scheme (Support The Advancements of Rural Students)
